

Nelson English Centre

To Whom it May Concern

Nelson English Centre is a middle-sized school in the seaside city of Nelson at the top of the South Island. The school has a full range of levels and many European students. Nelson is friendly and convenient, with three national parks nearby, including New Zealand's most popular park Abel Tasman National Park.

Nelson welcomes a lot of Japanese students who first studied English in Auckland but who then wanted a different kiwi experience. Some students chose come directly from Japan to Nelson.

We have found five advantages in our relationship with EX company:

- EX keeps up-to-date with news from Nelson
- EX company has a deep understanding of New Zealand life, people and geography
- EX gives clear, accurate information to students
- EX provides good support and help to its students
- EX understands the full range of study options outside of Auckland and so is an excellent company for Japanese students who demand something a little different or special

In summary, we have great confidence in EX company and their helpful staff. We appreciate their support for the Japanese students who chose to have a very special study experience here in Nelson

Kind regards

James Upton
Director
